Summary

Experienced PHP & Laravel developer with 4+ years of expertise in building scalable web applications and multi-tenant architectures. Passionate about software architecture, automation, and performance optimization. Dedicated to knowledge-sharing through online courses and YouTube content, helping developers master modern web technologies.

Experience

Laravel & PHP Instructor • Udemy & YouTube • March 2023 – Present

Created 15+ Laravel-focused courses covering multi-tenancy, authentication, payments, testing and API development. Engaged thousands of students with highly rated content on Udemy and YouTube

Back End Web Developer • CCIT Solutions • March 2022 – July 2023

Designed and developed new web applications from scratch, ensuring high scalability and maintainability. Upgraded and optimized legacy applications, enhancing performance and code quality. Followed best coding practices, delivering clean, readable, and well-documented code.

Freelance Back-End Web Developer • July 2020 – present

Developed custom web applications ranging from simple to more complex web-based systems. Delivered efficient, well-documented, and maintainable code tailored to client needs. Worked with various clients to build solutions that enhance business processes.

Education

Academic Diploma in Information Systems

Faculty of Graduate Studies for Statistical Research

Cairo University (2020 – 2022)

Bachelor's Degree in Architecture

Faculty of Engineering
