Summary

I'm energetic and passionate full stack web developer looking for an opportunity to enhance my abilities in a reputable organization. I have working experience in PHP, Laravel with MySQL and interested to explore this journey.

Experience

Back End Web Developer • Remote • March 2022 – present

I'm currently working as a back end web developer with CCIT solutions based on Riyadh, Saudia Arabia. I'm responsible for developing new web applications from scratch and also updating other applications that need more enhancements with clean, readable and organized code.

Freelance Full Stack Web Developer • Egypt • July 2020 – present

I'm currently working as a freelance web developer responsible for developing innovative web applications that range from single static page to more complex web based internet applications with clean, readable and commented code.

Technical Architect & Visualizer • Egypt • July 2016 – Dec 2019

I worked as an architect and visualizer with construction companies for 3 years till 2019. Then I decided to shift my career to web development.
